Dear Business Owner

The Mayfield Mainstreet Committee is looking to gather support to lobby council to have the redevelopment of the Victoria Street Car park placed into the 08-09 Budget. *So that the redevelopment can be achieved next year.*

Councils budget process starts at the end of this year for next year thus it is important that we as a business district gather as much support for the “need” of the redevelopment of the car park to support a better shopping experience for our customers and free up localised parking in the streets for business owners and employees.

This outcome cannot be achieved by one or two people – it needs local businesses who do feel that they are and will be affected in the future to ask their clients to support the attached petition to be presented to council.

We will look to collect names and support for July – Aug and if need be September – to present to council in October.

Please place completed petitions into the envelope provided and if you need more forms contact Kathie on 49 787836.

All petitions will be collected at the end of Aug – or September depending on the support received.

Regards,
Kathie Heyman
Mayfield Mainstreet
Coordinator
